SUPPORTING BURN SURVIVORS AND THEIR FAMILIES

ENCOURAGING THEM TO LEAD HAPPY, FULFILLING AND PRODUCTIVE LIVES

An average of 5 New Zealand children die each year from burn related injuries and every day a child is burned severely enough to be admitted to hospital.

Our Trust relies solely on the generous support of the public to continue our vital work for those affected by burn injuries.

Burn survivors not only have a change in facial or body image to deal with, but possibly also the loss of a family member, their home and/or their career.

By supporting us and endorsing our work, you ease the burden of those affected by the trauma of a burn injury. For this we are extremely grateful.

THE BURN SUPPORT GROUP CHARITABLE TRUST

IS A NON-PROFIT ORGANISATION
PROVIDING SUPPORT:

- to individuals who have sustained a burn injury and their families, during and after their hospital stay and where possible, in other parts of New Zealand.
- by improving patient care through the funding of equipment to help burn patients over and above that which is funded by the health service.
- by fostering the sharing of information between burn survivors, their families, health professionals and other interested parties.
- by facilitating Re-Entry Programmes in schools for children returning to school and adults returning to the workplace.
- by providing opportunities for mutual support with other burn survivors with meetings, burn camps, adult retreats and scholarships to attend the Phoenix Society for Burn Survivors' annual World Burn Congresses held in the U.S.A. (Google: World Burn Congress)

"The Burn Support Group has been a lifesaver for my son's confidence, emotional well being and his attitude towards life. Experiencing support and understanding between other parents helps us have a positive outlook for the future. Sharing my journey as the parent of a burned child has inspired me to help others."
ANDREA WAINOHU KING

"Connecting with the Burn Support Charitable Trust has been amazing for my personal growth . . . it has taken me from burn victim to burn survivor!"
MELISSA PATERSON

INJURY PREVENTION AWARENESS PROGRAMMES:

We aim to lower the incidence of burn injuries and provide education on burn prevention by:

- holding educational seminars for schools and community groups.
- increasing burn prevention awareness by attending appropriate community events with a display stand and relevant resources.
- working with other community organizations to promote injury prevention awareness: NZ Fire Service, Safekids and Injury Free Counties Manukau.
- providing FREE burn prevention lessons and resources to schools, kindergartens, Kohanga Reo and other community groups.
