

A Splash of Colour

A Splash of Colour has a simple mission:
*To provide a fun environment where you can
unleash your creativity in a relaxed
and supportive environment.*

We knew from the very beginning that we wanted our events to be about fun, socializing, community and creativity, rather than a structured art class. At an event you will create your own masterpiece, make new friendships and have fun.

A Splash of Colour is supports with charity work in the community through our Painting for a Cause program. Our artists host a painting event to raise funds for a local or regional non-profit organization. We also host events for non-profit organizations to experience the joy of a social painting session.
